INDI WATTE

Designer Who Codes

I BUILD STORIES AND THE WEBSITE THEY LIVE ON

Third-year **Digital Design & Development** student bridging the gap between artistic vision and robust code. I combine an arts background with technical precision to build **digital products** that feel as good as they look. This taught me patience and to keep looking until something **just feels right.** I bring that same eye to every product and interface I build: designed with care, made for real people who will actually use it.

SELECTED PROJECTS

FULL CASE STUDIES ON INDIWATTE.COM

Sounds like antwerp

Visual Design Lead For Visit Antwerp

Led the visual identity of Sounds Like Antwerp, resulting in a cohesive brand experience for young urban travelers and positive client feedback.

Interstellar spaceship

ux research · user testing · prototype · team of 4

Designed a knowledge archive for a future multi-generation space mission that detects fading knowledge and nudges the crew with quick refresher tests, based on research, testing and several rounds of iteration.
